What is SDGO?

Taylor & Francis SDG Online is a curated online collection of previously published journals and books content from Taylor & Francis across all STEM and HSS disciplines. This is supplemented by a wide range of new Teaching & Learning resources including presentations, videos, case studies, teaching guides, and lesson plans. SDGO aims to meet an increasing demand for knowledge about the United Nations' 17 Sustainable Development Goals within the HEI market. It is published in consultation with the United Nations' Global Compact Principles for Responsible Management Education (PRME).

What are the SDGs?

In September 2015, all 193 member states of the United Nations adopted an ambitious 15-year plan to address the world's most critical challenges: ending poverty and hunger, improving education, fighting inequality and injustice, protecting the planet, and ensuring a life of dignity for all. Formed of 17 interconnected Sustainable Development Goals (SDGs), or Global Goals, with 169 associated targets, the plan defines the world we want, applies to all nations and institutions, and sets out an agenda to change the world for all for the better between now and 2030.

Increasingly our stakeholders – authors, editors, professionals, professors, researchers and students – will be turning to us for knowledge, data, innovations, connections and ideas related to these goals.

User Access

1. How to register:

Where access is being made by a pre-registered customer through an authentication method such as Athens or IP authentication, users will NOT be required to sign in again in order to gain access to the content. However, some functions are user specific, e.g. Saved Searches and a user will need his own log in credential to make use of these facilities. To create the username/password the user needs to register his details (name, surname, email address and password) on the platform.

2.Homepage

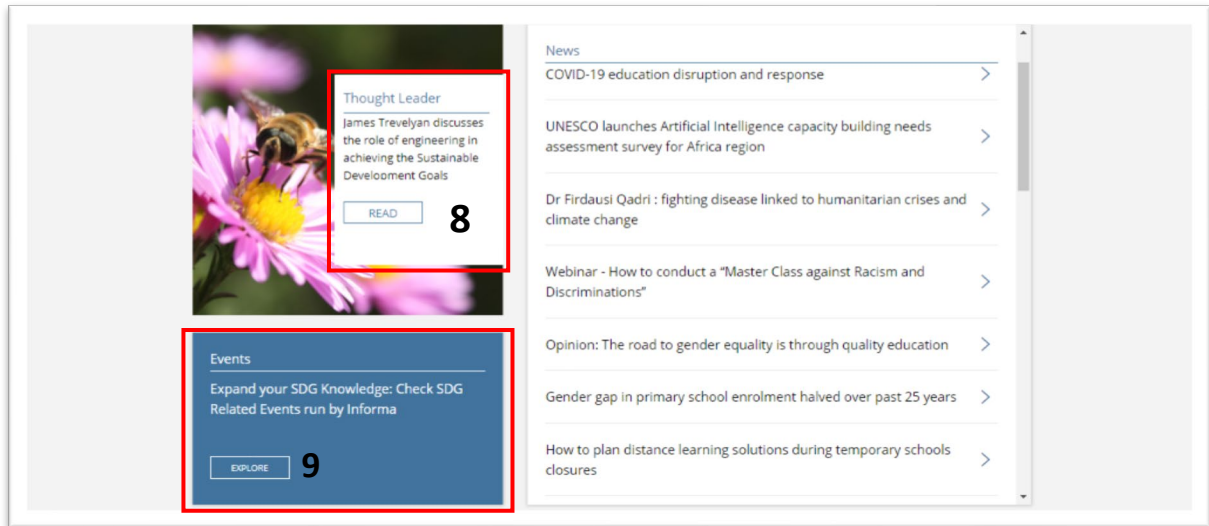

On the homepage, you can search for content on SDGO as well as within all titles or all collections that your institution has access to on our eBooks platform using the dropdown menu (6).

Further down the page there is the SDG wheel (7). Clicking on each segment will display the goal, and you can see how many Chapters, Articles and Teaching and Learning Resources we currently have for that goal (8).

Clicking on the name of the goal will take you to the goal page and show you the amount of content available for that goal.

Further down the homepage there are several chapters highlighted. There is also a news feed, which is linked to relevant RSS feeds, and links to our Thought Leader (8) and Events pages (9).

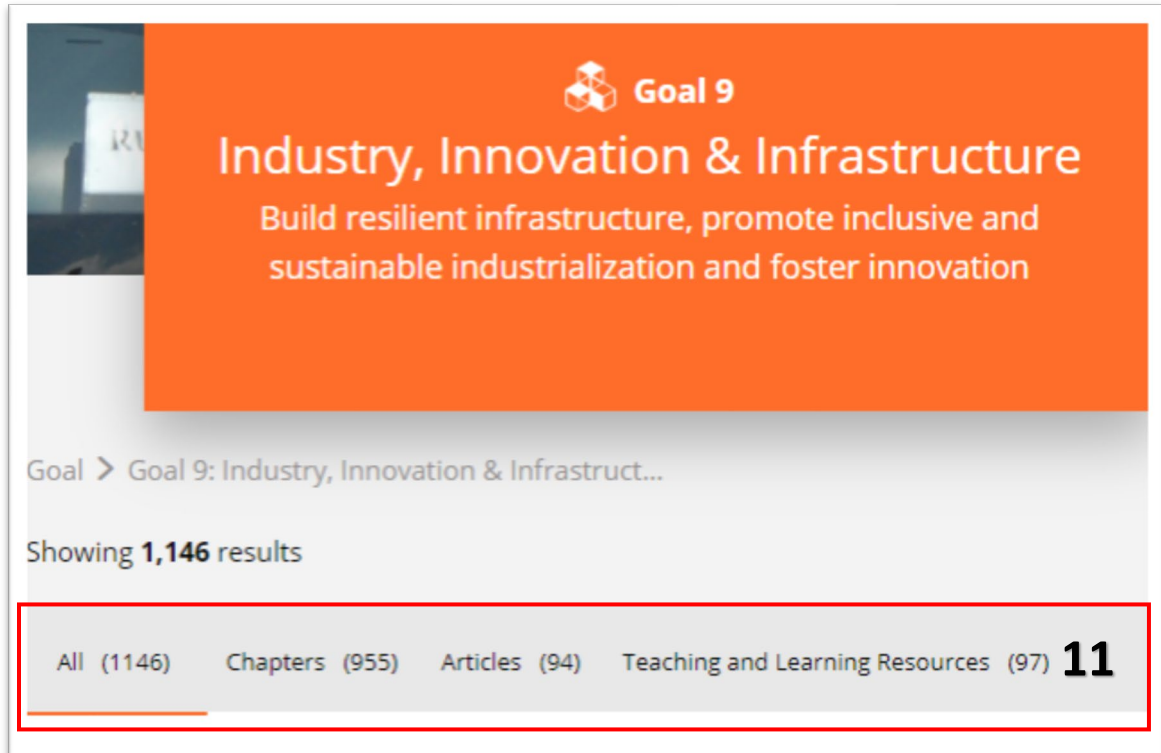

The Thought Leader (8) section contains contributions on issues relating to the Sustainable Development Goals. Whereas, the Events (9) section shows SDG – related Informa Events.

3.How to search content

On the homepage you can navigate each goal using the SDG wheel. Click on each segment to display the number of chapters, articles, and teaching and learning materials relevant to that goal.

To go to a Goal page and see all the content relevant to that goal, click on a goal within the SDG wheel and you will be directed to the goal page (10). Here you can browse through the content relevant to that goal. The content is divided into book chapters, journal articles and teaching & learning resources (11).

 **Goal 9**

Industry, Innovation & Infrastructure

Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation

Abstract

This chapter focuses on how the process discontinuities help or hinder the development and use of technological innovations in building, both as a process and as a product. The off-site volumetric and development of complete building solutions was developed through a long-term series of entrepreneurial product and process innovations that created a direct link between the client and the producer. To bring an innovative product to market in the construction sector, the innovator must overcome the discontinuities, especially in the horizontal dimension where different organizations are responsible for only part of a project. The chapter explores how an innovative technology gets to the market and examines how the multiple obstructions to innovation may be overcome in practice. Two theoretical bases are adopted: transaction cost economics explains make-or-buy decisions at multiple tiers and business development explains how different companies in the process respond to the way that demand is put to them and how markets for products are developed.

Circular Speeds: A Review of Fast & Slow Sustainable Design Approaches for Fashion & Textile Applications

By Kate Goldsworthy, Rebecca Earley, Kay Politowicz

[Download](#)

Abstract

In this paper, developed by a group of design researchers at UAL, we define circular design in the context of a sustainable fashion system and consider how a polarisation of thinking in relation to "speeds" has occurred. By reflecting on the practice outcomes produced as part of the Textile Toolbox in Mistra Future Fashion (MFF) Phase 1, we question the idea of "circular speeds" for textile design and analyse concepts which relate to "super-slow" and "fast-forward" approaches. The MFF programme's cross-disciplinary approach brings together design and scientific researchers with industry experts in a bid to understand and recognise the potential for design in creating a circular fashion future at multiple lifecycle speeds.

About Section

Click on “About” (18) at the top of the page to watch the SDGO tutorial video (19) and to explore the SDGs, our collection, about T&F, advisory board, contributors and thought leaders’ sections (20).

The screenshot shows the top navigation bar of the SDGO Online website. The 'About' link is highlighted with a red box and labeled '18'. Below the navigation bar is a blue banner with the text 'Take a tour' and 'Find out more about our Sustainable Development Goals Online collection'. On the left side, there is a vertical menu with 'Take a Tour' highlighted and labeled '19'. Below the menu, a video player is shown with a red box around the 'Take a Tour' menu item and labeled '20'. The video player displays a thumbnail for 'Sustainable Development Goals Online: Take a Tour' with a play button and a red overlay for 'Goal 1 No Poverty'.
